

Muhammad Hassaan Shafique

Full Stack Developer

✉ hassaanshafique398@gmail.com ☎ +923325153030 📍 Islamabad, Pakistan 🔗 LinkedIn 🐙 Github 📁 Portfolio

Full Stack Developer with 1 year of experience in building responsive, user-friendly web applications using **React**, **Next.js**, **TailwindCSS** and **Firebase**. Alongside hands-on experience with **Redux**, **Node.js** and **MongoDB**.

📁 PROFESSIONAL EXPERIENCE

Ivory Solutions, Full Stack Developer Jan 2024 – present | Islamabad, Pakistan

- **Enhanced System Responsiveness:** Corrected and optimized the responsiveness of the application, ensuring a seamless user experience across various devices and screen sizes.
- **Backend Team Collaboration:** Worked closely with the backend team to integrate APIs and ensure smooth data flow between the frontend and backend systems.
- **Developed Secure Authentication:** Implemented and maintained secure authentication mechanisms, enhancing the overall security and user management of the application.

Center for Advanced Research in Engineering (CARE) pvt Ltd, Jul 2023 – Oct 2023 | Islamabad, Pakistan
Front-End Developer Intern -----| React | Next.js | Firebase|

- Implemented Firebase Authentication for secure user login and registration, enabling a seamless user experience on the e-commerce platform.
- Developed dynamic product listings, allowing users to browse and interact with a variety of products offered by the website.
- Developed a feature-rich Todo List application with functionalities including task creation, editing, deletion, and marking as complete.

📁 PROJECTS

E-Commerce Website (MHS Clothing), React | Firebase

- Built a Feature-Rich E-Commerce Website using React and Firebase, including user **authentication**, dynamic **product listings**, and an efficient **add-to-cart** functionality.
- Integrated **Secure Payment Processing** with **Stripe**, enabling seamless and secure transactions for users purchasing products on the platform.

People's Blog, React.js | Firebase

- Developed a full-stack React and Firebase web application for a collaborative blogging platform.
- Implemented user authentication Signup, Login and Sign in with Google and secured data storage with Firestore for a seamless and secure user experience.
- Integrated Quill Rich Text Editor to empower users with advanced content creation capabilities, allowing them to write and publish visually appealing blog posts.

Real-time Chat Application, React.js | Firebase

- Developed a Real-Time Chat Application using React and Firebase, enabling instant messaging with WebSockets and real-time database updates.
- Implemented User Authentication and Authorization using Firebase Authentication, ensuring secure access and personalized user experiences.

Crud App (MERN), React.js | Node.js | Express.js | MongoDB

- Developed a Full-Stack CRUD Application using the MERN stack (MongoDB, Express, React, Node.js), enabling efficient data management with Create, Read, Update, and Delete operations.

🧠 SKILLS

-: HTML | CSS | JavaScript | React | Next.js | Redux | Node.js | TailwindCSS | Git | GitHub | Firebase | MongoDB | Socket.io |
Firebase Realtime Database | Firestore Database | Responsive Design

🎓 EDUCATION

Bachelors of Computer Science, Sep 2019 – Aug 2023 | Islamabad, Pakistan
Capital University of Science and Technology (CUST)
